### SHE HAD LOST NEW HUSBAND

Many Languages Tried on Frantic Woman Before the Cause of Her Trouble Was Explained.

She wailed, gesticulated, declaimed. Every language that got off sixteen north-bound subway trains at Thirtythird street station was tried on her. But nobody could make out more than was obvious to all from the start, that the woman was frantically excited and had lost something on the line.

Into both tunnels she pointed. She was about thirty years old and good looking. People thought the poor creature must have mislaid her baby some where along the track. Several wanted to go to search. But she pointed mostly into the tunnel through which she had not traveled. None could solve the mystery.

For nearly an hour she went through all the regular signs of intenne distress, and caused a block among the passengers at the station. The crowd extended into the street and gave rise to rumors that there had been a terrible accident. Still no Office in Barrett Building. 1091-2 South one could understand her, and she would not understand any sort of persuasion to take her departura.

There the twelfth person sent for tried Polish and learned that the woman was Katherina Gorud, recently arrived, and still more recently married, and lived somewhere on a hill in Spuyten Duyvil, but she did not know where.

She had been shopping with her husband in Fourteenth street, and in the rush at six o'clock the crowd on the subway had carried her into a local train and her husband into an express. The police gave her coffee and cakes and sent out to find her husband New York World

Pensions for Cats and Horses. Old age pensions are spreading. But who would have thought of St. Francis of Assist as contributing to so modern a movement? Nevertheiess, the kindly saint who preached to fishes and birds is still a factor to berackened with. As witness the ease of the malden lady who died in Londen recently and made provision in her will for pensions for her cars and boruss. Her orders to her trustees were to the effect that they are to pay \$200 a year for the care of each of her cats. They are also to see that each unimal is properly looked after and treated with kindness. Her horses are also to be provided for, not allowed to do harder work than they have been accustomed to, or are to be usual bequests are explained by the school elsewhere.
